# CYRIL JOSEF TINAE

Cebu, Philippines • +63-917-193-7051 • tinaecyriljosef@gmail.com • LinkedIn • Portfolio

## Education

**UNIVERSITY OF THE PHILIPPINES**                                                        Cebu City, Philippines
BS Computer Science | First Year 1.95 GWA (Equivalent to 3.3)                            Expected July 2028
Relevant Coursework: Data Structures and Algorithms, Programming Paradigms

## Experience

**Graphic Designer**                                                                      Cebu City, Philippines
**Project-based**                                                                        September 2025 – Present
- Designed a clear and visually structured PCR flowchart poster using Figma for client's class requirement
- Applied layout hierarchy, icons, and color consistency to simplify complex processes for easy understanding

**UP Computer Science Guild - TekToks**                                                   Cebu City, Philippines
**Creatives Committee**                                                                   September 2024 – June 2025
- Designed graphics and digital assets for a student-run podcast about tech news
- Contributed to branding and content planning, leading to increased viewership and engagement

## Certifications & Achievements

**Datacamp**                                                                              Cebu City, Philippines
**Working with OpenAI API**                                                               February 2026
- Learned to integrate the OpenAI API to build prompt-driven features and automate text-based workflows
- Gained hands-on experience designing prompts, handling API responses, and embedding AI capabilities into applications

**Datacamp**                                                                              Cebu City, Philippines
**Intermediate SQL**                                                                      February 2026
- Strengthened SQL skills by writing intermediate-level queries involving joins, subqueries, and aggregations
- Applied SQL to analyze structured datasets and extract meaningful insights from relational databases

**The Odin Project**                                                                      Cebu City, Philippines
**Advanced HTML & CSS**                                                                   July 2025 – August 2025
- Built my first personal portfolio using semantic HTML, CSS, and vanilla JavaScript
- Designed and implemented a responsive portfolio homepage following modern layout and styling best practices.

## Projects

**BudgetWise**
- Architected a full-stack financial management app using Next.js, Tailwind CSS, Claude AI, and Supabase featuring real-time income/expense tracking, e-wallet integrations, and automated data-driven financial tips
- Engineered a high-performance landing page using Vanilla HTML/CSS/JS with seamless scroll and modern hover animations

**Snippit Landing Page**
- Architected an intuitive, animated landing page for a video tool using React and Tailwind CSS, utilizing Framer Motion to build high-performance micro-interactions

**Ligtasyon Landing Page**
- Engineered a high-fidelity landing page for a disaster-readiness platform using React + Vite, leveraging Framer Motion to implement smooth, state-driven transitions and a responsive UI designed for emergency information clarity

## Skills

**Programming**: C++, C#, Python, HTML, CSS, Tailwind CSS, JavaScript, Typescript, React, Vite, Node.js. Next.js, SQL
**AI:** ChatGPT, Claude, Gemini, GitHub Copilot
**Tools**: Canva, Figma, Adobe Lightroom & Photoshop, Davinci Resolve
**Languages**: English (fluent), Filipino (fluent), Bisaya (native), Chavacano (native)
**Creative & Communication**: Campus journalism, graphic design, photography, video editing, guitar, singing
